Sage Names Paramount Technologies a Gold Development Partner

Attainment of Elite Status Reflects Strategic Contribution of Paramount's WorkPlace Solutions to Sage's Business Management Portfolio

Walled Lake, Michigan, May 11, 2009 — Paramount Technologies, the leading global provider of mid-market Employee Workforce Automation solutions, announced today that it has been selected as a Gold Development Partner for Sage's Business Management Division (BMD). Achieving this status demonstrates Paramount's commitment to delivering strong solutions for Sage ERP platforms that enable companies to improve their business processes. Paramount's comprehensive and proven WorkPlace eProcurement, Project Accounting, Time and Expense Management solutions are available immediately for Sage MAS 500.

The BMD Development Partner Program promotes the development of integrated third-party solutions that complement Sage's award-winning software brands. The program also ensures that developers pass rigorous testing as well as meet stringent integration, installation, and documentation standards. Being a Gold Development Partner assures Sage customers and business partners of a high level of consistency, predictability and confidence when implementing third-party enhancement solutions that integrate with Sage's ERP systems.

"Paramount Technologies is an outstanding Sage development partner, and we are proud of their Gold Development Partner status in our ISV Program," said Alan Bryant, Senior Vice President ISV Programs and Developer Relations for Sage's Business Management Division. "We look forward to future solutions that Paramount Technologies will offer to Sage customers and partners."

"We've been a channel partner of Paramount Technologies since December 2003 and have multiple installations," said Dale Potter, President of Premier Computing and a Sage MAS reseller since April 2003. "Their solutions are top-notch and their reseller support is impeccable. We're excited about the opportunity to partner now with Paramount Technologies on the Sage MAS 500 platform."

"This achievement highlights our strategic relationship with Sage and affirms our commitment to providing exceptional business management solutions to Sage customers and partners. When our partners and customers choose WorkPlace eProcurement, they can be confident that they are investing in a solid solution that has passed the rigors of Gold Development Partner certification," says Salim Khalife, President and CEO, Paramount Technologies.

About Sage's BMD Development Partner Program

The BMD (Business Management Division) Development Partner Program is designed to help ISVs (Independent Software Vendors) successfully develop, test and market applications that enhance and extend the functionality of Sage's BMD solutions. The program provides extensive development resources, technical services, strategic product and marketing benefits that help maximize Development Partner revenue opportunities.
